iEAST

SoundStream/SoundStream Pro

Quick Start Guide

Wireless Multi-room Audio System
www.ieast.net

Introduction

iEAST sound streamers are innovative and dedicated wireless streamers, which are able to turn your current speakers, soundbars and home theatre speakers into a Wireless Multi-Room Sound System by connecting to your home WiFi Network. The specialized iOS and Android App offers the easiest and best user-friendly experience for music streaming and multi-room sound system set up.

iEAST streamers also provide the most powerful playback options, which allow you to stream synchronized music or multiple kinds of music from your cellphone, online music services or your home media center with awesome sound quality in multiple rooms.

App Download

- To use your iEAST unit, please download iEast Play
  App from App Store or Play Store.

available in store:

Connection Option 1

Wireless Connection for iOS and Android devices

- Connect your cellphone to your home network.
- Run iEast Play App and choose Add Device.
- Type the password of your home router in iEast Play App.
- Press WPS button on iEAST "WPS" to configure.

*Once connected, the device will be encrypted, the password is the same as your router's. To connect more units, no need to input password.

Connection Option 2

- Enter "Setting"-> directly connect iEAST units.
- After connecting with your iEAST unit, you can
  stream local music from the phone to the speaker.
- To open the control platform enter
  http://10.10.10.254/ into your browser.
- Choose WiFi-> your WiFi Router-> enter the password
 and you should connect successfully.

Connection Option 3

The device can be directly connected via LAN w/o
input the password. Users should follow steps to get
the device encrypted:
Setting>Speaker info>Device Password.

Name Your Device

- After login, you can name your device as follows

✏ Rename	‹ Name Your Device Done
	Media room
	Guest room
	Foyer
	Dining room
	Bathroom
	Master room
👤 Speaker Info	Patio
▣ Device Content	Communication
